ADVANCE SALE OF NEWEST "WASH" FABRICS

The Spring awakening has come. The world of fashion is throbbing with life and enthusiasm. Each express from the east brings to us immense shipments of gorgeous, new spring goods. We are offering a grand aggregation of exclusive styles in Colored Wash Fabrics, the surpassing beauty of which is due to the effectiveness of the new designs and colorings. Many of these patterns were designed and manufactured especially for a few large and favored retailers. Their production was then discontinued, so these retailers may have something exclusive for their better trade.

SHEER EFFECTS

In neat designs will be in vogue for the coming spring and summer. These include plain, and figured silk Organdies, silk Zephyrs and Tissues, printed Taffeta, sheer Batistes, dotted Swisses and Chambray Linens, as well as Madras effects, particularly satin stripes, and plain weaves.

FIGURED ORGANDIES

In using the term "figured organdies" we do not confine this exclusively to organdie proper, for under this head will be included many sheer lawns and cloths that occupy a place between organdies and lawns. These will be worn principally in large floral designs, although many bud and small wreath effects will be seen this spring.

BATISTES

The designs in the Batistes for this season will be almost altogether on white grounds, and in small neat effects, Polka dots, stripes, rings and small geometrical figures, rose-buds and the usual designs of this nature will prevail.

THE DOTTED SWISSES

For this season are fine sheer goods, the groundwork being either woven or embroidered dots or figures, printed with floral designs on the same order as the popular organdies.

MERCERIZED TAFFETAS

According to the leading designers of fashion, will also be extensively worn this season. In these come some very handsome designs, exact imitation of the fine silk taffeta checks, although much superior to taffeta because of its perfect wearing qualities.

BRIEF NOTES AND DESCRIPTIONS OF THE NEW WEAVES AND EFFECTS

imm texture, white ground, with delicate, dainty checks.

The term Shadow Check is because of its peculiar weaving, bringing out a sort of invisible check. It is a fabric you are justified in buying early because of its nature, as well as the exclusive designs to be had at this date.

IMPORTED SILK TAFFETA CHECKS.

These checks will be very popular this season, of this there is no doubt. We have such a fine line of these that you shouldn't fail to see them. This is a mercerized fabric, and an exact imitation of the popular silk taffeta, although much more serviceable. Just the thing for dainty Summer Gowns, young girls' dresses, etc.

MARIGOLD BATISTE.

It comes in all the latest shades and floral, figured and striped effects. Will make dainty waists and house and street dresses for those who desire the medium priced goods.

IMA BATISTE.
